

EMPLOYMENT REPORT FULL-TIME MBA CLASS

2018

“The relationship between ESMT and top companies is created through a dynamic feedback culture, constantly strengthened by activities of mutual benefit. I chose ESMT because I wanted to take a leap and totally change my career by going into the digital/internet industry. Today I am guiding the setup of new global activities in one of the most innovative digital companies in the world. I was able to achieve this because ESMT introduced me to Delivery Hero through many events, workshops and visits. Furthermore, Berlin has the perfect environment to learn from new businesses and cultures and finally, Germany provides a lot of opportunities and resources for professionals.”

“ESMT Career Services not only connects you to many companies and executives – through master classes, company visits, and events on campus, but also helps you on developing a complete understanding of the feasible working alternatives and opportunities in Europe. The class size creates a safe environment allowing easy access to professors and staff. Exchanging ideas is a daily routine, and being exposed to companies from all sizes in and outside Berlin, cultures and backgrounds, allowed me to decide on my next career steps.”
